DANIELLE VANCE

Principal Cloud Security & DevOps Architect

danielle.vance@cloudsec.io | +1-206-555-0199 | Seattle, WA | linkedin.com/in/daniellevance

Pragmatic cloud security architect with 10+ years establishing zero-trust access fabrics, automated container compliance gates, and multi-region AWS/Kubernetes landing zones.

TECHNICAL SKILLS

· AWS
· Terraform
· Kubernetes
· Docker
· Vault
· Falco
· Trivy
· Python
· Go
· GitLab CI

CERTIFICATIONS

· AWS Security Specialty
· CKA (Kubernetes Admin)
· CISSP

EDUCATION

University of Washington
B.S. Informatics (2014)

PROFESSIONAL WORK EXPERIENCE

Apex Security Solutions · Principal Cloud Architect

Seattle, WA | 2020 · Present

? Architected automated DevSecOps pipelines scanning 140+ microservice repositories across GitLab CI.
? Deployed enterprise-wide HashiCorp Vault cluster handling 15M dynamic secrets requests daily.
? Reduced security vulnerability remediation turnaround time by 65% via automated PR vulnerability reporting.

CloudScale Networks · Senior DevOps Security Engineer

Bellevue, WA | 2016 · 2020

? Migrated legacy monolithic infrastructure to automated Terraform-managed EKS Kubernetes clusters.
? Achieved SOC 2 Type II compliance certification within 6 months across AWS cloud infrastructure.

TECHNICAL PROJECTS

KubeArmor-Automate

? Open-source eBPF security daemon enforcing pod-level network policy isolation.
