CORE SKILLS

- Go, Python, C++
- Kubernetes, Docker, Helm
- AWS (EKS, RDS, SQS)
- Kafka, RabbitMQ, Redis
- Terraform & CI/CD
- Linux Kernel & eBPF
- Distributed Consensus

CERTIFICATIONS

- Certified Kubernetes Admin (CKA)
- AWS Solutions Architect (Pro)
- HashiCorp Terraform Assoc.

EDUCATION

B.S. in Computer Science
UT Austin (2016 – 2020)
GPA: 3.88 / 4.0

LUCAS MOREAU

Senior DevOps & Site Reliability Engineer (SRE)

PROFESSIONAL SUMMARY

DevOps & Reliability Engineer with 6+ years managing multi-region Kubernetes clusters, automated zero-trust networking, and high-availability cloud infrastructure. Successfully maintained 99.995% uptime across 80+ customer-facing microservices.

WORK EXPERIENCE

Senior Infrastructure Engineer — Datavault Systems (Austin, TX)
2022 – Present
- Built GitOps deployment pipelines via ArgoCD, shortening production release cycles from 3 hours to 4 minutes.
- Cut monthly AWS infrastructure spend by 32% ($45,000/mo) through spot instance orchestration and Karpenter autoscaling.
- Designed multi-region failover architecture on AWS across us-east-1 and us-west-2.

Cloud Platform Engineer — Stratosphere Networks (Dallas, TX)
2020 – 2022
- Administered 14 production Kubernetes clusters hosting 400+ Docker pods.
- Instrumented distributed tracing with OpenTelemetry, Prometheus, and Grafana to reduce MTTR from 45 mins to 8 mins.
